IN OPENING STATEMENT TO THE JURY HE EXCORIATES ALLEGED WIFE SLAYER.

### DAUGHTER WAS ON STAND

Ide's Little Girl Testified To Father Beating and Choking Her Mother.

Six single men and six married men have been selected to try Seymour Ide for murder. The six married men are fathers and heads of families. Ide is charged with beating his wife and the charge is that the woman, mother of his children, died from the effects of the beatings.

It required less than six working hours to select the jury that will sit during the trial of the case, which is making remarkable progress in a case of this character. Judge Hearn, assisted in every way possible to make quick, but effective work in getting twelve men to try the issues of the case on trial.

The jury is composed of the following men:

- D. B. Uhl, Dixon
- Charles Henschel, Lee Center
- William Burkhardt, Alto
- August Burhenn, Nachusa
- Tom Richards, Dixon
- Joseph Rosebaugh, South Dixon
- George I. Rinnon, Dixon
- H. D. Riley, Scarborough
- Ed. Herrman, Alto
- Simon Espe, Alto
- Paul Kries, Ashton
- Roy Farver, Ashton.

The single jurors are Wm. Burkhardt, Tom Richards, Joseph Rosebaugh, Simon Espe, Paul Kries and Roy Farver.

Immediately after 1 o'clock this afternoon States Attorney Edwards delivered his opening statement to the jury, consuming 25 minutes.

Attorney H. A. Brooks followed, the states attorney in behalf of the prisoner, consuming about 15 minutes.

### Pictures Are A Beast.

If the state proves all the state attorney declares it can, Seymour Ide is a man to be despised. On the other hand, if he is what Mr. Brooks, his attorney, says he is, he should have the sympathy of the community in which he and his family lived. However, the outcome of the case will be determined by the jury, after the evidence is all in and the case is closed as far as evidence and eloquence is concerned.

It was nearly 2 o'clock when the states attorney called his first important witness, Mary Smith, wife of Patrick Smith, a neighbor of the Ide family, who declared she was quite familiar with the trouble between Ide and his wife.

### Ide Watched Edwards.

Seymour Ide never took his eyes off the states attorney during the latter's opening statement concerning the state's side of the case. Mr. Edwards told of the awful abuse Ide is alleged to have heaped upon his wife, some of which seem past belief.

### Smiled At Brooks.

During the statement of Attorney Brooks, Ide changed his position several times and at times smiled. Mr. Brooks made a frank statement of

the trouble and said the woman was as much to blame as Ide. It was a matter in which both were largely to blame. Mr. Brooks declared the defendant is being persecuted and is not a bad man.

### Called Fifty Men.

More than 50 men from nearly every township in the county were called to get 12 men to try the case.

There are about 30 witnesses in the case. It is expected the jury will get the case Saturday forenoon.

This will be the only case tried this week and all present jurors not on this case have been excused for the term.

### Heard Threat to Kill.

"I don't know if I love my papa or not," declared Blanch, the 13 year old daughter of Seymour Ide, in answer to Mr. Brooks' question in cross examination.

In direct examination she testified that she saw her father strike her mother many times. Once she saw him take hold of her throat and strike her in the face. "Mamma's mouth was bleeding and I got some water and washed the blood away," declared the child. She also testified that many times she saw her mother cry after her father had beaten her. "I heard papa say at one time that he would kill mamma," declared the child.

Blanche testified that one time her father came home and saw the lamp overflowing; he asked the mother why she had not shut off the water, to which she replied that she did not know how. She stated that her father took her mother by the neck and choked her and beat her on the face

Julia Fielding was born in Marion township, Lee county, June 6, 1873. She was married at her home Nov. 2, 1898, to Walter Preston of Dixon. They immediately started housekeeping in Dixon. Less than a year ago Mr. and Mrs. Preston moved into their beautiful new home on North Crawford.

The surviving children are: Frances, Louise, Robert, Mary Jane and the baby.

Mrs. Preston is also survived by five brothers and sisters: C. J. Fielding, Hays Center, Neb.; M. J. Fielding, South Dixon township; Mrs. Ellen McCaffery, Walton, and Mrs. Marguerite Fane and Mrs. Ann Bartholomew of Dixon.

The many people who knew Mrs. Preston loved her for her nobility of character. She was a kind and loving mother, wife and home-maker. Her death at this time of her life when she was in the prime of her usefulness and so necessary to her family is nothing less than tragic in its sadness.

### STATE AIDS STENOGRAPHY

High Salaries Paid by State Spurs to Increased Efficiency.

Springfield, Ill., Oct. 5.—High salaries paid by the state of Illinois to stenographers under civil service are resulting in a higher standard of stenographic work, not only in the state service but in commercial work, according to officials of the civil service commission.

The state pays better wages than do most private employers and consequently is getting the pick of the stenographers of the state. Many girls come out of business colleges with the fixed ambition to improve until they can meet the standards set for the state service.

### FIREMEN ARE BURIED IN BURNING DEBRIS

CHRISTIAN BROTHERS COLLEGE AT ST. LOUIS IS SCENE OF BIG FIRE.

### TWO INSTRUCTORS ARE BURNED

Aged Instructors Were Unable to Get Out of Fiercely Burning Building.

(Associated Press)

### Two Die In Fire.

All of the faculty except Brothers Corman, aged 95, and Clemens, aged 75, and all of the students are accounted for. The fire was discovered at breakfast time. Lewis Noleen, a nurse attending Corman and Clemens, jumped from the fifth story window and will probably die.

The loss is estimated at \$300,000. At noon today the fourth floor collapsed and plunged a number of firemen into the basement. Three were rescued, badly injured and others are in the wreckage.

Rock Island, Ill., Oct. 5.—The business section of Orion, near this city, was wiped out by fire early in the morning. Calls for assistance from Rock Island and Moline were promptly answered, but the lack of water in the town made the apparatus almost useless. The damage is \$50,000.

### PRESIDENT WILSON PASSED THRU DIXON

SPECIAL TRAIN WENT WEST ON NORTHWESTERN AT MIDNIGHT.

Woodrow Wilson, president of the United States, and his party passed through Dixon at 12:50 o'clock this morning in a special train on the C. & N. W., en route to Omaha, where the executive is scheduled for an address this evening. The Presidential special ran as the second section of No. 7, and consisted of a dynamo car, diner, chair car, Pullman sleeper and the president's private car, "Mayflower."

Apropos the run of the special, Engineer Manning, at the throttle of the Los Angeles Limited, which also acted as pilot train for the special, made a great run. An accident to the headlight at Oak Park delayed the limited 30 minutes, but Mr. Manning pulled his train of twelve heavy steel cars over the division in record time, running from Oak Park to Sterling, a distance of 102.5 miles, in 120 minutes, including stops at West Chicago, DeKalb, Rochelle and Dixon.

### 16,000 ROUMANIANS HAVE BEEN WIPED OUT

WERE CAUGHT BETWEEN TWO FORCES OF BULGARIANS —BRIDGES GONE.

### BRIDGES GAD BEEN DESTROYED

Austrian Artillery Had Ruined the Pontoon Bridges At Their Rear.

(Associated Press)  
The invasion of Bulgaria by 16 battalions of Roumanians who crossed the Danube near Rahova, ended disastrously, the Roumanians being virtually wiped out. Sofia says the Roumanians, 12,000 to 16,000 strong, without artillery, were caught between two Bulgarian forces and they sought refuge in the direction of the pontoon bridge across the Danube, which had been destroyed by Austrian monitors.

Broke In Disorder.  
The remnants of the invading force then broke in disorder and the Bulgarian troops engaged yesterday in completing the work of destruction.

### Tentons Repulse Foes.

Along the Dodrudja front the Roumanians and Russians have been repulsed. Bucharest, however, claims progress and yesterday reported the capture of 1000 men and seven guns from Mackensen forces.

On Somme Front.  
On the Somme front Paris claims further progress in the vicinity of Peronne and Bapaume road. London reports artillery activity and raiding operations.

Sight appalling.  
Danish fishermen reported sighting on Monday off the Soleswig coast, a partly submerged Zeppelin surrounded by German vessels.

London, Oct. 4.—The Russians, without lessening their heavy pressure on Lemberg, have launched a terrific new offensive on the key front of the east—that in Volhynia, west of Lutsk. Great forces have been concentrated for the new effort against von Lin-singen's army group, and three Austro-German armies—those of Lieutenant General Schmidt von Knobelford, General von der Marwitz and General von Tertszyanski—bore the brunt of the blow.

An official statement from Petrograd announces that some progress has been made in "stubborn fighting," but accounts of the battle from Berlin describe a terrific slaughter which has gained the Russians nothing.

Many Russian Attacks Repulsed.  
The offensive was launched after an artillery bombardment little less intense than those on the Somme which are amazing the world. The first Russian troops were sent forward Monday morning at about 5 o'clock. This attack was repulsed. Three Russian corps, two of which were guard corps, bore the brunt of the fighting. One attempted twelve times to storm the Teuton positions; seventeen times the soldiers of the guard went forward only to be driven back, the German commander reports.

In one sector, north of Zaturce, the Russians succeeded in entering demolished Teuton trenches, but Berlin announces they were driven out by a counter-attack. The charge is made that Austria and German wounded left in the trenches were slaughtered by the Russians.

So great was the slaughter, Berlin declares, that the Russian artillery was forced to turn its fire on the Russian trenches in order to drive the foot soldiers forward to the attack. Curtains of fire were lifted behind the infantry line to prevent them falling back.

On the front northeast of Lemberg, Berlin also claims a further success for the Austro-German counter attack.

### Backus Writes Interesting Letter Of Manilla And Phillipine Islands

The interesting travel letters of Japan which were published a few weeks ago in the Evening Telegraph have as their sequel letters from Hong Kong. Dr. Claude Backus, who is on his way to Bombay, India, where he will follow his profession of dentist, is, as doubtless many have surmised, the "staff correspondent." (Dr. Claude Backus)

At Hong Kong, Aug. 4, 1916.

The day following our departure from Japan we skirted the shore of the unhappy island of Formosa, which our political gossip told us has been but partly conquered or subjugated by Japan. The savage head-hunter tribes are still unsubdued although a large ratio of the people have been slaughtered in the hill fighting. The country is very mountainous, resembling Japan in every way, but no life is seen along the shores; no fishing boats, no charcoal burners—in fact, not a sign of human life. The Philippines, Formosa and Japan are volcanic and geographically are of the same chain. Formosa is the chief source of camphor supply to the world, the trees being of great size and numberless. The people resemble the Philippines more than any other tribes, but are still without the advantage of help, such as the Filipinos received from Uncle Sam, the policy of Japan having been one of coercion rather than of uplift.

Mr. Bennett, a teacher of long employment in Luzon, prophesied that the most marked impression on entering Manila would be of the cleanliness, the sanitation, and evidence of improvements of all kinds and it was a true prophecy; the contrast with the filthy squalor of the Japanese cities brought exclamations of delight

On Saturday the friends of the community came to the church, bringing choice things from among the farm products. Monday morning the exhibit was arranged in the basement and that evening a fine supper was served by the Aid society. After supper the produce was auctioned by Mr. Berry. The corn was as fine as you would see at a state fair and fruit of all kinds, from grapes, apples, plums, strawberries, and garden stuff, pumpkins, squashes, etc., and it was as nice as any state fair could be. I tell you South Dakota has every thing nice; great large watermelons, too. The society netted about \$80 from the sale. Most everything brought a good price but it was a beautiful exhibit. The corn was as fine as you ever saw. Some people told me some men could not believe South Dakota could raise everything put in the ground and taken care of. Both white and yellow corn was on exhibition and all nice. We had a lit-

## ACIDS IN STOMACH SOUR THE FOOD AND CAUSE INDIGESTION

"Pape's Diapepsin" fixes sour, upset stomachs in five minutes

If what you just ate is souring on your stomach or has like a lump of lead, refusing to digest, or you belch gas and eructate sour, undigested food, or have a feeling of dizziness, heartburn, fullness, nausea, bad taste in mouth and stomach headache, you can surely get relief in five minutes.

Ask your pharmacist to show you the formula, plainly printed on those fifty-cent cases of Pape's Diapepsin, then you will understand why dyspeptic troubles of all kinds must go, and why it relieves sour, out-of-order stomachs or indigestion in five minutes. "Pape's Diapepsin" is harmless; tastes like candy, though each dose will digest and prepare for assimilation into the blood all the food you can eat; besides, it makes you go to the table with a healthy appetite; but what will please you most, is that you will feel that your stomach and intestines are clean and fresh, and you will not need to resort to laxatives or liver pills for biliousness or constipation.

This city will have many "Pape's Diapepsin" cranks, as some people will call them, but you will be enthusiastic about this splendid stomach preparation, too, if you ever take it for indigestion, gases, heartburn, sourness, dyspepsia or any stomach misery.

Get some now, this minute, and rid yourself of stomach misery and indigestion in five minutes.

### Marriage Announced

Mr. George W. Hill announces the marriage of his daughter, Guadalupe, to Mr. Clarence Richard Lindstrom, on Wednesday, the Fourth of October, at Rockford. They will be at home after November First in Rockford.

The wedding was simply solemnized and will be followed on Saturday by a reception in Rockford at the residence in which Mrs. Lindstrom, with her brother and two sisters, made her home. Following the reception Mr. and Mrs. Lindstrom will take up their residence in a cottage they have recently furnished. The guests at the reception will include the relatives of both families. Mr. Hill of this city, the father of the bride, will be present.

After the ceremony Mr. and Mrs. Lindstrom left for Chicago and will visit in Dixon briefly before returning to Rockford for the reception.

Mrs. Lindstrom is especially attractive and popular. She grew up in Dixon and has many friends here. She taught successfully here in the north Dixon grade school and later taught in Rockford with equal success. Mr. Lindstrom is the manager of a large department store in Rockford. Their marriage is deemed by their friends a most auspicious one.

### Hart-Griffith

A very pretty autumn wedding was solemnized Wednesday afternoon at 2:30 o'clock at the home of the bride's parents, Mr. and Mrs. John Charters Griffith. Their only daughter, Mildred Elizabeth, was united in marriage to Herbert Earle Hart of Westfield, Mass., by Rev. R. L. MacWhorter of the Presbyterian church.

The house was beautifully decorated with vines and baskets filled with pink tulle lover's knot. The bride wore a gown of white taffeta and Georgette crepe.

While congratulations were being extended, John Charters played a number of piano selections, which were followed by violin and piano numbers rendered by Misses Marjorie and Ellen Griffith. Later a two course luncheon was served.

About thirty friends of the couple were present to witness the nuptial ceremony. Among those from out of town were Miss Olive Strong of Chicago, Leonard Murray of Westfield, Mass., Mr. and Mrs. Hugh T. Brown of Rockford, William E. Trein of Dixon, the Misses Ellen and Marjorie Griffith of Mt. Vernon, Iowa, and Stanwood Griffith of Champaign.

The wedding is the culmination of a college romance, the bride and groom having met at Illinois University, of which both are graduates. Mr. and Mrs. Hart will be at home after November 1st in Champaign. Mr. Hart holds the office of public accountant there. The best wishes of a host of friends follow them.

### To St. Joseph, Mich.

Miss Maud Cheney will leave Thursday for a month's visit in St. Joseph, Mich.

**DON'T SCOLD, MOTHER! THE CROSS CHILD IS BILIOUS, FEVERISH**

Look at tongue! If coated, clean little stomach, liver, bowels

Don't scold your fretful, peevish child. See if tongue is coated; this is a sure sign its little stomach, liver and bowels are clogged with sour waste.

When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has headache, indigestion, diarrhoea, give a teaspoonful of "California Syrup of Figs." and in a few hours all the foul waste, teething bile and fermenting food passes out of the bowels and you have a well and playful child again. Children love this harmless "fruit laxative," and mothers can rest easy after giving it, because it never fails to make their little "insides" clean and sweet.

Keep it handy, Mother! A little given today saves a sick child tomorrow, but get the genuine. Ask your druggist for a 50-cent bottle of "California Syrup of Figs." which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Remember there are counterfeits sold here, so surely look and see that yours is made by the "California Fig Syrup Company" or other fig syrup.

◆◆◆◆◆ HOW TO RID THE SKIN OF OBJECTIONABLE HAIRS ◆◆◆◆◆  
(Aids to Beauty)

A simplified method is here given for the quick removal of hairy or fuzzy growths and rarely is more than one treatment required. Mix a stiff paste with some powdered delatone and water, apply to hairy surface and after 2 or 3 minutes rub off, wash the skin and every hair has vanished. This simple treatment cannot cause injury, but care should be exercised to get real delatone.

### Surprisingly Good Cough Syrup Made at Home

Costs Very Little and Easily Made, but is Remarkably Effective.

You'll never really know what a fine cough syrup you can make until you prepare this famous home-made remedy. You not only save \$2 as compared with the ready-made kind, but you will also have a more effective and dependable remedy in every way. It overcomes the usual coughs, throat or chest colds in 24 hours—relieves even whooping cough quickly.

Get 2½ ounces of Pinex (50 cents worth) from any good drug store, pour it into a pint bottle and fill the bottle with plain granulated sugar syrup. Here you have a full pint—a family supply—of the most effective cough syrup that money can buy—at a cost of only 54 cents or less. It never spoils.

The prompt and positive results given by this pleasant tasting cough syrup have caused it to be used in more homes than any other remedy. It quickly loosens a dry, hoarse or tight cough, heals the inflamed membranes that line the throat and bronchial tubes, and relief comes almost immediately. Splendid for throat tickle, hoarseness, bronchitis, croup and bronchial asthma.

Pinex is a highly concentrated compound of genuine Norway pine extract, combined with eucalypt and has been used for generations for throat and chest ailments.

Avoid disappointment by asking your druggist for "2½ ounces of Pinex" with full directions, and don't accept anything else. A guarantee of absolute satisfaction or money promptly refunded, goes with this preparation. The Pinex Co., Ft. Wayne, Ind.

### Loyal Daughters

The Loyal Daughters of the St. Paul's Lutheran church met at the home of Miss Bernice Thoma Tuesday evening. A short business meet-

ing was held during which the Society adopted a Constitution. After the business session a social hour was enjoyed by all. Music and games furnished amusements. Delicious refreshments were served by the hostess. At a late hour all departed after having spent a delightful evening.

### Keigwin Husking Bee

The Keigwin brothers of Hamilton township were in town today making arrangements for the annual "Husking Bee" to be held at the home of H. H. Keigwin, nine miles south of Harmon and near Walnut. This frolic is under the auspices of the Ladies' Aid of the Walnut Baptist church. Last year several Dixon people attended and pronounced it the best entertainment they ever attended. The pumpkin pies were excellent and the "red cars" were abundant. This year they expect to outdo their previous "bees" and plans for it are nearly complete.

Upon the program will appear Mrs. Laura Baker Franks, well known interpreter of dialect sketches, of Galesburg, Ill., and O. T. Gyllock, Dixon's sleight of hand artist. Mr. Gyllock had a share in the program last year and proved immensely popular. This year he will present a program of all new features. The remainder of the program is still in the making.

## ENCOURAGE HIGH SCHOOL ATHLETICS.

After all, the movement for American preparedness must get back to the matter of improving the physical well-being of America's citizens.

Elaborate coast defenses will be of little account if the guns they shelter are not manned by active, keen-eyed gunners. Strong-bodied, agile men only can operate the craft with which the harbors must be protected. Firm muscles and healthy nerves are required for the bodies of marching men who are to respond to the country's call when danger threatens, says the Illinois State Journal, in an editorial that applies as well to Dixon as to Springfield.

To secure the sort of men demanded where there is a call to arms the nation must begin early. Its youth must be kept in trim. Its boys must be trained to endure heavy strain and long-sustained effort. They must have tough sinews and good wind.

Athletic exercise makes for the right sort of manly material. And the earlier it is taken up by future defenders of the nation, the better. It belongs, properly, to the school life of the country. Physical training should go hand in hand with mental training.

For these reasons there should be a generous response to the movement for arousing interest in the athletic work at the Springfield high school. Every citizen should encourage it—not only by buying tickets to the football games and other athletic events but by attending these contests. Their presence will do more to stimulate the young folks than their money.

Moreover, the patrons of the games will enjoy the events. Perhaps, too, they will be spurred to take physical exercise on their own account and thus share in the benefits of a general athletic awakening.

## TAKING IT OUT OF THE FARMER.

(From the Minneapolis Journal)

Congress has passed a law raising the wages of the railroad trainmen. Who pays the bill?

The farmers of the country are discussing the question seriously. They begin to understand that a considerable share of the extra millions to be paid the trainmen by order of the president and congress will come out of their pockets.

The railroads claim they cannot pay the bill. They were willing to concede the increase if freight rates were increased accordingly. To this the president agreed in principle, though he could not pledge specific performance. Accordingly congress ordered the wage increase and at the same time directed that a commission be appointed to see whether it was justified.

If this commission finds the wage raise justified but also reports that railroad income is not sufficient to bear the extra burden, it is evident that the public must furnish the money. That means to a large extent the farmer for his products form a very large share of the country's freight.

Now, the average income of the farmer as computed by the census bureau is \$1.47 a day, out of which he must support his family. There is no 8-hour day for him, in spite of the "judgment of society." Early and late he and his wife and family are at it, with no kindly congress to reduce hours of his labor.

Naturally, the farmer is not well content with the prospect that he must pay more to get his products to market, in order that one of the highest paid classes of labor in the country may have a raise of 25 per cent.

## ALL REPULSED, SAYS BERLIN

(Continued from Page 1)

More than 2,500 Russians were taken prisoners north of Barkerka, it is stated.

Russians Take 5,000 Prisoners. While the German war office claims that Russian attacks in the Zlota Lipa region, southeast of Lemberg, were repulsed, Petrograd announces the capture of 1,000 additional prisoners, making a total of about 5,000 since Saturday. The Germans have brought up heavy reinforcements in this district and have attempted counter attacks. These failed with severe losses, the general staff report given out in Petrograd says.

Apparently as a diversion to tighten the pressure in the south Von Hindenburg has opened an offensive against the Russians in the Dvinsk district. Strong forces sent forward near Novo Alexandrovsk, south of Dvinsk, were taken under the fire of the Russian artillery and scattered.

College Town Must Be Permanent Home Says Wisconsin Court.

Madison, Wis., Oct. 5.—Students at the University of Wisconsin who do not make Madison their permanent home are not entitled to vote here, according to a decision of the Wisconsin supreme court. This will bar many students from voting.

The opinion says in part: "The general rule is that a man must have a habitation somewhere, and that he can have but one at the same time. Every person can fix his own residence, provided he makes it personally permanent."

### ROUMANIANS ESCAPE TRAP

Paris, Oct. 5.—The Serbians have crossed the Tohera river and defeated the adversary on the Nize mountain in Serbia, and also captured the Kessali railroad station, according to advices received here. The Serbian territory recaptured now embraces 230 square kilometers (nearly eighty-nine square miles), including seven towns. French and Russians also continue victoriously their forward movement.

#### New Roumanian Gains.

London, Oct. 5.—Victories for Roumanian arms along the Transylvania and Dobrudja fronts, with the capture of 4,242 prisoners, are reported by Bucharest. The announcement implies that the troops of King Ferdinand have followed up their recent defeat of the Teutonic troops in the Fogaras region of the Austrian province, some twenty miles within the frontier, by inflicting another reverse on the enemy.

Moreover, in Dobrudja, it is stated, the Russo-Roumanian left wing successfully stormed a position at Amzaea.

Bucharest makes no mention of the rumored abandonment of the Danube strongholds of Tutakan and Silistria by the German-Bulgar-Turkish army of Field Marshal von Mackensen, rumored Tuesday, and the official statement indicates that the main pressure of the defending forces is being exerted in another portion of the field.

#### Bulgars Again Retreat.

Berlin admits that the Bulgarians on the Macedonian front defending Monastir have again fallen back before the entente allies along a line measuring nearly forty miles between Presba Lake and Nize Hill, north of Kaimakalan height, which is in the hands of the Serbs.

Germany, also, states that "the enemy (the British in this case) is maintaining itself northwest of Lake Tabinos, at Karazahof, on the left bank of the Struma."

In an address at Dalderby, Lincolnshire, he said that, while the allies were winning the war slowly but surely, he said: "We must be under no delusion as to the end or probable duration of this great struggle. We must be prepared to continue for a time which cannot at present be forecast."

IF BACK HURTS USE SALTS FOR KIDNEYS

Eat less meat if Kidneys feel like lead or Bladder bothers you—Meat forms uric acid.

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and stimulate them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts is harmless; inexpensive; makes a delightful effervescent lithia-water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications.

A well-known local druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

## BAGHUS WRITES INTERESTING LETTER

(Continued from Page 1)

and approval from all. A British officer aboard had advised me to spend little time in Manila, there was so little of interest to see, the weather was so torrid, but I have since "suspicioned" a bit of jealousy among our British cousins regarding our Philippine achievements; in fact, as an ardent admirer of our Admiral Dewey I became involved in a little rapid fire verbal action off Corregidor when said officer ventured the opinion that the victory at Manila was over-rated by we Americans and that Dewey did not get very far. As a matter of punctured pride I suggested as compared with the Dardanelles and Gallipoli of more recent date that our admiral had traveled quite some distance, and, Whiz! the battle was on.

Seriously, the first thing appealing to an American visitor is to view Corregidor, past which natural fortress Dewey crept in the early morning mist, the Spaniards only awakening when too late. The channel here is very narrow and the danger of mines and torpedoes can only be appreciated by the observer. From Corregidor, where the U. S. now has large barracks, forts boasting one 16-inch gun, a magnificent light house and wireless station, to the city, guarded by a javite fortress, is a matter of twenty miles. Between the two Dewey calmly suggested breakfast, evidently preferring to fight on a full stomach, as well as to bestow confidence and have a good light for the gunners to engage the Spanish fleet. After breakfast he circled in range, engaging Cavite—a very low lying fort and, I should say, difficult target—and the warships lying under the fort's protection. Very vividly the scene recalled the excitement and exhilaration experienced the morning (can it be 18 years since?) that we won the morning papers to read of the battle! The harbor is indeed a most beautiful and expansive one, interior we are told to none in the east. At present some dozen German warships are interned for the present war, how little did Admiral Von Dedricks anticipate such conditions when he attempted to dictate to Dewey in '98 and was told to mind his own affairs or take the consequences!

From the moment of leaving the ship our two days here were crowded with pleasing and gratifying experiences. Immense (for their day) battlements of stone were built between the bay and the city by the Spaniards in the 17th century. Some of the old brass cannon still surmount the walls but the moats of dirty water have been drained by Uncle Sam and beautiful gardens, lawns and flowering tropical shrubs have taken their place. Broad boulevards wind about, streets are clean and no offense is offered to the nostril. So very different from the other far eastern cities visited. Motor trucks, automobiles and army wagons mingle with the native "driven, wide-horned oxen—calaboes, I believe they are called—which drag tremendous loads on two-wheeled drags. Dapper, quick-gaited native ponies dash about pulling Calesas, two-wheeled rubber-tired rigs with slim, erect, white uniformed drivers on the tiny front seat. Unbiased travelers declare to me that Manila is today the most up-to-date and healthiest city in the far east and, after a two-days' prying tour on foot and in a calesas it is easy to believe. There is a most elaborate hotel and park on the bay front and several more in the new city. Everywhere are the splendidly kept parks with the most splendid of flowering trees and shrubs. One tree, especially noted, was a large variety with fern-like leaf on the order of the Umbrella China, topped by thousands of flowers resembling yellow orange nasturtiums and most gorgeous they are. Another large shrub seen in hundreds boasted great crimson blossoms like mallow marvel. This is the rainy season and foliage, grass and blossoms are of the brightest, indeed so fresh and attractive as to resemble early spring in Illinois. But splendid as all the improvements are, it is the ancient Spanish city and Pasig river that pleased me most. The old cathedrals and churches with their ancient chimneys and intricate architectural designs, the ugly dungeons under the forts and city gates. By the way, these same gates must not be passed without mention. The one most attracting me was not the most famous or pretentious, but luckily lay just opposite the ship so I was privileged to visit it and enter the walled city through its portals on both days.

## A WORD WITH WOMEN

Valuable Advice for Dixon Readers.

Many a woman endures with noble patience the daily misery of backache, pains about the hips, true, nervous spells, dizziness and urinary disorders, hopeless of relief because she doesn't know what is the matter.

It is not true that every pain in the back or hips is trouble "peculiar to the sex." Often when the kidneys get congested and inflamed, such aches and pains follow.

You can tell it is kidney trouble if the secretions are dark colored, contain sediment the passages are too frequent or scanty. Then help the weakened kidneys. Don't expect them to get well alone.

Doan's Kidney Pills have won the praise of thousands of women. They're endorsed at home—Read this Dixon woman's convincing statement:

Mrs. C. Charlton, 516 Lincoln Ave., Dixon, says: "I suffered for a long time from pains across my back and sides. The trouble was particularly severe at night and early in the morning. When I bent over to lift anything, I was hardly able to straighten up again. My kidneys were inactive, too. Doan's Kidney Pills, procured from Leake Bros. Co.'s Drug Store, weren't long in giving me relief." (Statement given May 21, 1912.)

On January 21, 1915, Mrs. Charlton said: "I use Doan's Kidney Pills whenever my back gets lame or sore and they always help me."

Price 50c, at all dealers. Don't simply ask for a remedy—get Doan's Kidney Pills—the same that Mrs. Charlton has twice publicly recommended. Foster-Milburn Co., Props., Buffalo, N. Y.

**BLUEBEARD, 82, GETS LIFE TERM****Michigan Octogenarian Did Mail Order Murder Business.****WED, ROBBED AND SLEW WOMEN**

Scott Maussell, Alias William Allerton, Slayer of Grand Rapids Bride, 55, Had Over 300 Women on Staff. Authorities Checking Up to Find if All Live.

Grand Rapids, Mich., Oct. 5.—Michigan's mail order murderer was taken to Jackson prison Wednesday evening to spend the remainder of his life there. As he is eighty-two and in feeble health his incarceration probably will be short.

Scott Maussell of Mancelona, Mich., a former lumber jack, is the man and 300 women scattered all over the United States and Canada will thank their lucky stars that they did not heed his urgent wooing and sell their property to become his wife. Maussell has confessed that he killed Mrs. Anna St. John of Elmira, N. Y., and Westboro, Wis., aged fifty-five, and is now believed to have murdered his son at Mancelona, ten years ago and his two sisters in the east eight years ago. All were slain while he was with them.

When arraigned Maussell pleaded guilty before the court put the question. Then Judge McDonald as speedily sentenced him to life. No time was lost in bringing Maussell to justice. He married Mrs. St. John Sept. 19, killed her Sept. 22 and stole \$400 from her purse. The crime was discovered Oct. 1, he was arrested late Oct. 2 and sentenced Oct. 4.

**Proposed to Many Women.**

Here are a few of the many women to whom Maussell proposed by mail and urged to sell their property and come here:

Mrs. Margaret Lightbody, Peoria, Ill.; Mrs. Emma Dudley, Port Hill, Idaho; Hanna C. Thomas, Goodland, Ind.; Mrs. Amy H. Sted, Hot Springs, Ark.; Mrs. E. V. Bogardus, South Bend, Ind.; Mrs. H. E. Phillip, Salem, Ore.; Mrs. Mary Coeyman, Washington, D. C.; Emily Mason, Maysville, Okla.; Mrs. L. Mills, Minneapolis; Mrs. Genevieve Minkler, Oshkosh, Wis.; Mrs. Nellie Caswell, Maynard, Ia.; Mrs. Susan Leist, Bluffton, Ind.; Mrs. Emma Musgrove, Alabama.

The chief medium through which Maussell secured the names of these women was the Standard Correspondence club of Grass Lake, Ill. Some action probably will be taken by federal authorities to put a stop to this system.

**One Woman Has Close Call.**

Mrs. Hanna Thomas had made all arrangements to sell her property at Goodland, Ind., and come here to marry Maussell when he was arrested for murdering Mrs. St. John, a wire received by the sheriff announces.

That Maussell may have married some of these women and after securing their money deserted or murdered them is the theory of the sheriff who is sending telegrams to every town from which Maussell received a letter asking if the correspondent still is living.

Much of Maussell's mail came to Mancelona, Mich., and was forwarded here for him. He ran a photo in several matrimonial papers and claimed to be a wealthy farmer. He said he had received twice as many letters as he now has but destroyed many of them.

**Mrs. St. John Crazy to Wed.**

Mrs. St. John, his last victim, was equally as anxious to marry, it appears, as Maussell was to induce her to come here so he could secure her money.

She had advertised widely in matrimonial papers although she still has a husband in Westboro, Wis. She brought \$500 here with her and spent \$100.

A daughter also resides at Appleton, Wis. The relatives have recovered most of the \$400 Maussell stole.

**WILLCOX CLAIMS HE SAW BACK SLAPPING****George W. Perkins Will Bet Colonel Didn't Do It.**

New York, Oct. 5.—There are two things which cannot be successfully warmed over—a cold dinner and an old love.

This was the comment of Chairman Vance C. McCormick of the Democratic national committee on the meeting of Colonel Roosevelt and ex-President Taft at the Union League club.

"From what I have read," added McCormick, "the widely advertised love feast provided plenty to eat, but very little love."

Chairman William Willcox, of the Republican national committee, was authority for the statement that either Roosevelt or Taft accosted the other with a slap on the back. This was after dinner and took place in a club elevator. The greeting was accompanied by a compliment on the speech of either Taft or Roosevelt, according to Willcox.

George W. Perkins, the prominent Progressive, offered to lay odds that it was not the Colonel who did the cordial back slapping.

**HARNESS RECORDS BROKEN**

Lee Axworthy Trots Mile in 1:59 1/2—New Stallion Mark.

Lexington, Ky., Oct. 5.—Record breaking continued at the trots, the most sensational mile of the season being trotted when the Pastime stable stallion Lee Axworthy driven by Ben White, set a new world's record for trotting stallions by turning the track in 1:59 1/2.

On two previous occasions he had beaten the record of the Harvester, 2:01, the former champion, trotting in 2:00 1/4 at Cleveland and in 2:00 at Syracuse. The fractional time of his mile was 1:20 1/4; 1/2, 59 3/4; 3/4, 1:28 1/4; mile, 1:59 1/2.
